WARRANTY

TEN-YEAR LIMITED WARRANTY

Issued by Peak Lining, LLC, a certified Pure Green Shield applicator, for the structures and lining system listed below.

OWNER _____

OWNER ADDRESS _____

PROJECT NAME _____

PROJECT LOCATION _____

STRUCTURE ID(S) _____

LINING SYSTEM INSTALLED

- ☐ System 4100 CP (cement rebuild + polyurea liner)
- ☐ System 5100 PFP (polyurea / foam / polyurea composite liner)

Products: MHGP 4240 polyurea and, for System 5100 PFP, MHDF 2120 high density foam, manufactured by Pure Green Shield, LLC.

COMPLETION DATE _____

WARRANTY ENDS _____

The completion date is the install date stamped into the liner. It starts the warranty period.

1. WHAT IS COVERED

Peak Lining, LLC ("Peak") warrants that the lining system it installed in the structures listed above is free from defects in materials and workmanship for ten (10) years from the completion date. This warranty is 100% effective for the full ten-year period.

2. WHAT COUNTS AS A FAILURE

A failure occurs if the lining system does not:

- prevent internal deterioration or corrosion of the lined structure;
- protect the substrate and the surrounding environment from contamination by exfiltration of effluent; or
- prevent groundwater infiltration through the lined surfaces.

3. WHAT PEAK WILL DO

If a failure occurs during the warranty period, Peak will, at its own expense, provide the labor, equipment and material needed to repair or replace the failed area so that it meets the standard above for the rest of the warranty period. A repair does not extend the warranty period.

4. MANUFACTURER MATERIALS

Peak installs Pure Green Shield products as a certified applicator, following the manufacturer's installation procedures. Those products may also carry the manufacturer's own warranty on its terms. Peak will coordinate any manufacturer claim for the Owner.

5. HOW TO MAKE A CLAIM

- Notify Peak in writing at **info@peaklining.com** within thirty (30) days of discovering a failure.
- Give Peak, and the manufacturer if requested, reasonable access to inspect the structure.
- Peak will schedule the repair and handle confined-space entry and flow control for the repair work.

6. WHAT IS NOT COVERED

- Mechanical or chemical abuse: exposing the lined surfaces to any force or chemical not customarily present in structures of this type.
- Physical damage caused by the Owner or its contractors, subcontractors or representatives, including damage from tools or cleaning equipment.
- Acts of God, including floods, fire, lightning and other natural disasters.
- Excessive structural movement, settlement or expansion, and cracks or defects from structural failure, faulty design or faulty construction of the structure.
- Disintegration of the substrate, and any area or component Peak did not line, such as frames, covers and connecting pipe.
- Changes in the appearance of the liner from accumulated dirt or other deposits.

7. DISCLAIMER AND LIMITATION OF LIABILITY

This is the only warranty Peak gives for this work. Peak makes no other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, to the extent the law allows.

In no event will Peak be liable to the Owner, in contract, warranty or otherwise, for any special, indirect, incidental or consequential damages of any kind. Peak's total liability under this warranty will not exceed the amount paid to Peak for lining the affected structure.

8. CERTIFICATION

This certifies that the lining system named above was installed by Peak Lining, LLC, a certified Pure Green Shield applicator, in accordance with the manufacturer's installation procedures, and is entitled to the warranty set out above.
